10th International Energy Conference

26-27 Aug. 2014 - Niroo Research Institute of Iran (NRI)

Efficiency in Resource Management,

Excellency in Energy Industry

10th International Energy Conference

Iran International Energy Conferences which are held biennially contribute to the analysis of problems and challenges facing organizations and institutions in the energy sector and finding solutions for them.

Wide participation and presence of organizations, universities and scientific and research institutes in the previous editions of International Energy Conference reveals the credibility of this event amongst energy experts, managers, researchers, and scholars.

The solutions formerly regarded as impossible or unaffordable are nowadays achievable technically and economically. Deployment of renewable energy resources, international cooperation, modern management systems, and advanced efficient technologies all can highly contribute to the development process.

The main theme of the 10th International Energy Conference is **“Efficiency in Resource Management, Excellency in Energy Industry”**.

This conference which is one of the largest gathering of managers and experts of the energy sector focuses on energy practice and policies. The event includes various items including paper presentations, workshops, key speaker addresses and professional round tables.

Requirements and supplying of reliable energy flow not only for the current generation, but also for the next generations.

Hereby, all the scholars, researchers, experts and managers of the energy sector are invited to send their papers relevant to the themes of the event to the secretariat of the conference. Valuable gifts will be presented to the selected papers.

D. Manzoor, PhD
I.R.Iran National Energy Committee Secretary

10th International Energy Conference

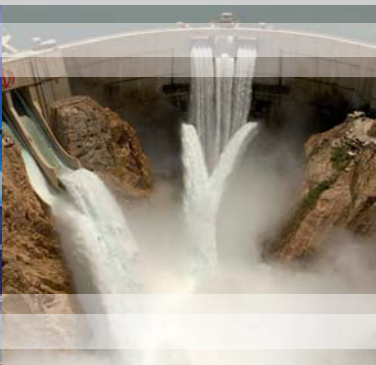

About the Conference

The 10th International Energy conference (IEC) to be held on 26-27 Aug. 2014, Tehran-Iran, is organized by Iranian National Energy Committee, the member of World Energy Council (WEC), to share and discuss recent developments in all energy sectors.

It is to be recalled that with the growth of technology and industry, the demand for energy has never been greater than today; therefore, finding new ways and resources to fulfill required energy can be considered as a more pressing concern today. In addition, new strategies are to be discussed to achieve the goal of energy efficiency. With a glance to the energy future, it can be inferred that the desirable goals cannot be obtained without a proper planning, management, policy making and international convergence.

The 10th International Energy Conference which is the greatest event of Iran in the field of energy is aimed to create a forum to reach specialized and outstanding national and international deliberations, accomplishments and contemporary research activities in energy sector. The 10th International Energy conference (IEC2014) invites all potential experts, academics, researchers and students to participate in the Conference and share and discuss their view points with others and interact with distinguished international figures in the energy sectors and governmental authorities.

10th International Energy Conference

Topics of Conference

1- Energy Resource Management

- * Energy Planning and Policy Making
- * Energy Sector Legislation & Regulation
- * Demand Management and Energy Efficiency
- * Energy Foresight
- * Structural Changes in Energy Sector
- * National Energy Master Plan
- * Human Resources Management in Energy Sector
- * Strategic Priorities in Energy Sector
- * Opportunities and Threats to Energy Sector
- * Energy in International Organizations
- * Energy Diplomacy and National Security
- * Energy Statistics
- * Financial Management in Energy Sector

2- Energy and Economic

- * Privatization in Energy Sector
- * Financing Energy Projects
- * Competition and Energy Market Organization
- * Energy Pricing and Energy Subsidy Reform
- * Business Development and Energy Trade
- * Energy Service Companies
- * Value Chain in Energy Industry
- * Global Financial Crisis and Energy-based Economies
- * Oil Revenue Management

3- Energy Technology and Environment

- * Green Economy and Energy Industry
- * New Technologies in Production, Transmission and Consumption of Energy
- * Energy Efficiency in Production, Transmission & Consumption
- * Energy Recovery Technologies
- * Renewable Energy Resources & Their Impacts on Energy Mix in the Future
- * Distributed Generation and CHP
- * Smart Grid and Energy Infrastructure
- * Global Warming and Emissions Trading
- * Social Costs of Greenhouse Gas Emissions
- * Unconventional Energy Resources
- * Prospects Energy Technologies
- * Regional & International Legal Instruments on Energy
- * Ways & Means to Control Gas Flaring
- * Climate Change and in Energy Sector

10th International Energy Conference

Agenda

- > Keynote Lectures
- > Paper Presentations
- > Technical Panels
- > Technical Workshops
- > Energy Exhibition

Conference Key Speakers International Organizations

Dr. Christoph Frei
Secretary General,
World Energy Council (WEC)

H.E. Suleiman Jaser Al-Herbish
Director General, OPEC
Fund for International
Development

Dr. Adnan Z. Amin
Director-General, International
Renewable Energy Agency
(IRENA)

Dr. Urban Rusnak
Secretary General, Energy
Charter Treaty (ECT)

10th International Energy Conference

Conference International Key Speakers

Prof. Friedbert Pflüger
Managing Director, Pflüger
International Consulting
GmbH, Germany

Prof. Willem Van Groenendaal
Tilburg School of Economics
and Management, Netherlands

Prof. Ching Chuen Chan
Honorary Professor, Electrical
and Electronic Engineering
Department, University of
Hong Kong

Dr. Hossein Razavi
World Bank, Washington DC

Prof. Ibrahim Dincer
Professor of Mechanical
Engineering, Faculty of
Engineering and Applied
Science, University of Ontario
Institute of Technology (UOIT)

Prof. Ahmad Hour
Associate Professor of Chemistry,
Lebanese American University

Prof. Yunus Çengel
Adnan Menderes University,
Aydin, Turkey

Dr. Daryoush Allaei
Founder, Chairman and CEO,
SheerWind, Inc., USA

Stefan Haid
Roland Berger Strategy
Consultants GmbH, Germany

10th International Energy Conference

Paper Presentation

Please note that all papers must be relevant to themes of the conference and must NOT be published before. The papers should be prepared with the determined format (full explanation can be found on the conference website). We are afraid to inform all authors that the papers which are not exactly in the explained format are not accepted. The deadline for paper submission is May 21, 2014

Technical Panels

The Tenth International Energy Conference is a convenient environment for propounds of latest scientific and operational accomplishments in the field of energy; It is also a golden opportunity for discussing issues and challenges confronting the energy sector.

Registration

Applicants may register through our website www.irannec.com for the upcoming Ninth International Energy Conference.

10th International Energy Conference

Exhibition

Parallel to the conference an exhibition is planned to be held to exhibit the most recent achievements and inventions of the energy industry. Owing to the importance of the conference and attendance of major energy industry owners and experts, the 10th International Energy Conference & Exhibition is intended to bring together industry leaders to exhibit their latest improvements in the use of energy as a key resource for meeting customer and utility system needs and for addressing other critical economic and environmental objectives. This exhibition is considered as a great opportunity for prosperous companies and associations to take part and demonstrate their latest developments in products, solutions and services in the field of energy industry.

Considering the above mentioned the conference organizers cordially invite your enterprise or company to join the 10th International Energy conference & Exhibition. We believe this significant event which is going to be held during the conference will enhance your profile and will create great opportunities for interactions among participants and your company/products.

For further information about the exhibition, please send your emails to: intl@irannec.com
